Education

Sep 2023 – Jul 2027
B.Sc. in Software Engineering, Ankara University, Ankara
CGPA: 3.51/4.00. Expected Graduation: July 2027.

Sep 2020 – Jul 2022
M.D. (Incomplete), Gülhane Faculty of Medicine, Ankara

Aug 2018 – Aug 2019
High School, Malatya Science High School, Malatya, Türkiye

Sep 2016 – Jun 2018
High School, Büyük College Science High School, Ankara, Türkiye

Work Experience

Jul – Aug 2026
Software Engineering Intern (Upcoming), ASELSAN, Ankara, Türkiye

Apr 2025 – Sep 2025
Civil Servant, Hacı Bayram Veli University, Ankara
Placed 293rd among 1.5 million applicants in KPSS (94.4/100) and appointed.

Apr 2024 – Apr 2025
Part-Time Student Assistant, Ankara University – Health, Culture and Sports Directorate IT Unit, Ankara
Developed Trileçe, a food info & rating app (3,000+ users); presented to SKS Director, receiving a part-time offer. Maintained & improved throughout.

Projects

Mar 2024 – Present
TÜBİTAK 2209-A Research Project - Trileçe: Developed a modular food info & rating system (Python/Aiogram) with a Pillow-based image processing pipeline. Building an AI demand forecasting model fed by weather, schedule, and consumption data under TÜBİTAK 2209-A as principal investigator.

Mar 2025 – Present
TEKNOFEST Smart Road Safety Competition with 5G & AI - 5Gear: 5G-integrated road safety system with YOLO-based vehicle detection, license plate OCR, and dynamic QoD API management; led project coordination.

Mar – Aug 2025
TEKNOFEST 2025 Air Defense Systems Competition - Anka Kalkanı: Air defense system using YOLO-based real-time target detection, classification, and tracking algorithms.

Spring 2025-26
YMH354 Web Design and Programming - Kuruş: AI-Powered Personal Finance Tracker: Full-stack expense tracking application with Gemini 2.5 Flash integration. Built with React, Express, and MongoDB; deployed on Vercel & Railway.

Spring 2025-26
YMH340 Data Mining – Diabetes Prediction with Machine Learning: Compared KNN, Decision Tree, and Naive Bayes classifiers using scikit-learn. Validated results with WEKA.

Spring 2025-26
YMH334 Functional Programming - Low-Cost Audiometer (Multidisciplinary): Contributed the medical computation layer to a multidisciplinary low-cost audiometer project; implemented in Java using functional programming principles.

Fall 2025-26
YMH339 Database Management Systems - SplitApp: Shared Expense Tracker: Developed a React Native mobile app for tracking shared expenses, with a 7-table relational schema on Supabase (PostgreSQL).

Fall 2025-26

YMH357 Graphic Programming - LabVIEW and Arduino Based Temperature Warning System: Developed a real-time temperature warning system using LabVIEW and Arduino Uno with cumulative threshold logic.

Spring 2024-25

YMH218 Data Structures - Mobile Banking Application: Built a full-stack mobile banking app (FastAPI + React Native) with JWT auth, IBAN transfers, and Stack-based transaction history on SQLite/SQLAlchemy ORM.

Spring 2024-25

YMH212 Software Requirements Analysis & YMH224 Advanced Programming Techniques - Randevum: Online Appointment Management System: Produced an Software Requirements Specification (SRS) for a web-based appointment platform; defined requirements, modeled use cases and DB schema, and specified a Django/React/AWS stack.

Certificates

Jun 2026

ALES 88.3/100

Apr 2026

YÖKDİL 82.5/100 – English

Feb 2026 – Present

Defense Industry 401, Defense Industry Academy

Feb 2025

National Competency Initiative Camp Participation Certificate, Presidency of Defense Industries, Istanbul

One of 100 students selected nationwide for SSB's first-ever defense industry camp. Won 2nd place in T3 Foundation's Ideathon with a security threat detection project.

Personal Skills & Competences

Language Proficiencies

Turkish (Native), **English** (C1), **German** (Beginner)

Technical Skills

Programming: **Python, C/C++, SQL, JavaScript, Java, C#**

Libraries & Frameworks & Tools: **YOLO, Pandas, NumPy, PyTorch, scikit-learn, Matplotlib, FastAPI, Django, Express.js, React, React Native, Git, SQL, WEKA, Docker, AWS, n8n**

Community & Activities

– Vice President, Ankara University Mind Sports Community (ANZEK)

– Member of Ankara University Dance Society; performs Argentine Tango in social and university events.

– Core Team Member, Google Developer Student Clubs

– Türkiye Debate Championship (Quarterfinalist)
